Description

Description:

This 8-outlet (120V 15A) Rack PDU delivers a cost-effective power distribution solution for your server rack/cabinet. The 1U PDU can be mounted horizontally in any server rack 19" in depth or greater, to provide eight 115V 15A power ports/outlets, and features a rugged steel casing to ensure maximum durability.

- The front of the PDU enabling you to control the power state with an illuminated power/reset switch.
- To prevent costly breakdowns of connected devices, the rack mount PDU features a built-in circuit breaker and reset switch, ensuring dependable performance of vital equipment.
- Low price point makes it ideal even for small rack setups with only a few devices, and powerful enough for enterprise configurations

- Guaranteed compatibility with all 19in server racks, this PDU is the perfect addition to your rack solution
- This power distribution system consolidates your power source and enables you to control all powered device from one switch
